

# FITA ARROWHEADS

Listed below are the scores required for the various FITA Arrowheads shot over the minimum 24 Target Marked or Unmarked rounds in registered FITA field events. See the FITA Rule Book for scores required when shooting over a greater numbers of targets.

## RECURVE (Red Pegs) and BAREBOW RECURVE (Blue Pegs)

ARROWHEAD	MEN	WOMEN
Green	198	193
Brown	228	211
Grey	258	241
Black	288	271
White	318	301
Silver	330	313
Gold	340	324

## COMPOUND (Freestyle and \*Barebow Compound both Red Pegs)

ARROWHEAD	MEN	WOMEN
Green	206	197
Brown	238	226
Grey	269	256
Black	300	286
White	331	316
Silver	344	328
Gold	354	337

Under AA rules Barebow Compounds shoot off the Blue Pegs and therefore cannot claim Arrowheads unless they enter the event as a Compound, and shoot off the Red Pegs.

The claiming process for these awards varies according to your RGB so please check with your Club or RGB Recorder. There are 2 ways of acquiring FITA Arrowheads:

1. In accordance with FITA rules only one award can be claimed for each score, and only the award that is relevant for that score may be claimed and will be issued for no charge if the requirements have been met. However the awards may be claimed in any order so archers are entitled to claim future higher or lower level ones which will be issued for no charge under the same guidelines according to the scores they shoot.
2. Archers may choose to purchase lower level FITA awards if they hold a FITA award higher than the ones they want to purchase. Requests are to be made through your RGB Recorder and there are no time frame limits. The AA Recorder will check the AA Awards database to ensure the higher award is held and send the awards requested and an invoice to the RGB Recorder for distribution. \$8 per award is the current cost though this will inevitably increase over time.

Only one Arrowhead of each colour may be awarded to an archer even if shot with two bow types as there is no difference in the awards, unlike the situation with the differing recurve and compound FITA Stars. Claims for Silver and Gold Arrowheads are individually processed by FITA from claims made to FITA by the AA Recorder on behalf of the archer, whereas the AA Recorder may hold stocks of the lower level Arrowheads.

# FITA STARS

FITA Stars are available for archers using recurve or compound bows in registered FITA Star events and they must be:

**Men shooting a Men's FITA (90m, 70m, 50m, 30m)**  
**Women shooting a Women's FITA (70m, 60m, 50m, 30m)**

FITA Stars are for scores of 1000 (white), 1100 (black), 1200 (blue), 1300 (red), 1350 (gold) and 1400 (purple). The Gold FITA Star on a coloured circular background is the Compound Star, whereas for recurve the 1000 one is just the gold star, and the higher ones are on a shield of the relevant colour. An archer may claim only one of each Star, but as the recurve and compound stars are considered different awards archers may claim both the recurve and compound FITA Stars if they shoot both bow types.

The claiming process for these awards varies according to your RGB so please check with your Club or RGB Recorder. There are 2 ways of acquiring FITA Stars:

1. In accordance with FITA rules only one award can be claimed for each score, and only the award that is relevant for that score may be claimed and will be issued for no charge if the requirements have been met. However the awards may be claimed in any order so archers are entitled to claim future higher or lower level ones which will be issued for no charge under the same guidelines according to the scores they shoot.
2. Archers may choose to purchase lower level FITA awards if they hold a FITA award higher than the ones they want to purchase. Requests are to be made through your RGB Recorder and there are no time frame limits. The AA Recorder will check the AA Awards database to ensure the higher award is held and send the awards requested and an invoice to the RGB Recorder for distribution. \$8 per award is the current cost though this will inevitably increase over time.

Claims for 1350+ Compound Stars and 1300+ Recurve Stars are individually processed by FITA from claims made to FITA by the AA Recorder on behalf of the archer, whereas the AA Recorder may hold stocks of the lower level FITA Stars.

# FITA CADET STARS

FITA Cadet Stars follow the same rules but are only for archers competing in the Cadet (U16) category with:

**Cadet Boys shooting a Women's FITA (70m, 60m, 50m, 30m)**  
**Cadet Girls shooting a Fremantle (60m, 50m, 40m, 30m)**

The FITA Cadet Stars are identical to the FITA Stars except that any gold colouring on the FITA Stars is replaced by silver. Archers already holding an award of a higher level as described above may purchase lower level awards.

Archers who are able to claim FITA Stars for the round shot cannot claim Australian Stars.

# FITA TARGET AWARDS

**WHITE**

**BLACK**

**BLUE**

**RED**

**GOLD**

**PURPLE**

FITA Target Awards are available for archers using recurve or compound bows in registered FITA events, and shooting the following scores for the appropriate round:

Event	White	Black	Blue	Red	Gold	Purple
FITA 70m Round	500	550	600	650	675	700
Half FITA**	500	550	600	650	675	700
FITA 900 Round	750	800	830	860	875	890
25m FITA Indoor	500	525	550	575	585	595
18m FITA Indoor	500	525	550	575	585	595

\*\* Half FITA is 18 arrows at each distance over the round required for a FITA Star by that archer (so over 90m, 70m, 50m, 30m for men and 70m, 60m, 50m, 30m for women).

The claiming process for these awards varies according to your RGB so please check with your Club or RGB Recorder. There are 2 ways of acquiring FITA Target Awards:

1. In accordance with FITA rules only one award can be claimed for each score, and only the award that is relevant for that score may be claimed and will be issued for no charge if the requirements have been met. However the awards may be claimed in any order so archers are entitled to claim future higher or lower level ones which will be issued for no charge under the same guidelines according to the scores they shoot.
2. Archers may now choose to purchase lower level FITA awards if they hold a FITA award higher than the ones they want to purchase. Requests are to be made through your RGB Recorder and there are no time frame limits. The AA Recorder will check the AA Awards database to ensure the higher award is held and send the awards requested and an invoice to the RGB Recorder for distribution. \$8 per award is the current cost though this will inevitably increase over time.

# FITA CADET TARGET AWARDS

**WHITE**

**BLACK**

**BLUE**

**RED**

**GOLD**

**PURPLE**

FITA Cadet Target Awards are available only for archers competing in the Cadet (U16) category using recurve or compound bows in registered FITA events, and shooting the following scores for the appropriate round:

Event	White	Black	Blue	Red	Gold	Purple
FITA 60m Round	500	550	600	650	675	700
Half FITA**	500	550	600	650	675	700

\*\* Half FITA is 18 arrows at each distance over the round required for a FITA Cadet Star by that archer (so over 70m, 60m, 50m, 30m for boys, and 60m, 50m, 40m, 30m for girls).

The FITA Cadet Target Awards are identical to the FITA Target Awards except that any gold colouring on the FITA Target Awards is replaced by silver. Cadet archers may claim the usual FITA Target Awards for the other available rounds.

# AA AUSTRALIAN STARS

Australian Stars are available for archers shooting in a registered FITA Star event, but over a round or using equipment that makes them ineligible to claim FITA Stars or FITA Cadet Stars.

Please note that the 'designated round' mentioned below is the one listed in Chapter 3 of the AA Rule Book for that age group and bow type to shoot at the AA National Championships. The following may therefore claim Australian Stars:

## 1. Compound and Recurve

Master and Veteran Men shooting a Women's FITA or Fremantle  
Master and Veteran Women shooting a Fremantle  
Intermediate archers shooting an Intermediate  
Cub archers shooting a Horsham

2. All Barebow Recurve archers shooting their designated rounds

3. All Barebow Compound archers shooting their designated rounds

4. All Longbow archers shooting their designated rounds

5. All Crossbow archers shooting an Australian 960 round

**Compound and Recurve** may claim from 1000 upwards in increments of 100 but including 1350

**Barebow** may claim from 800 upwards in increments of 100

**Longbow** may claim from 600 upwards in increments of 100

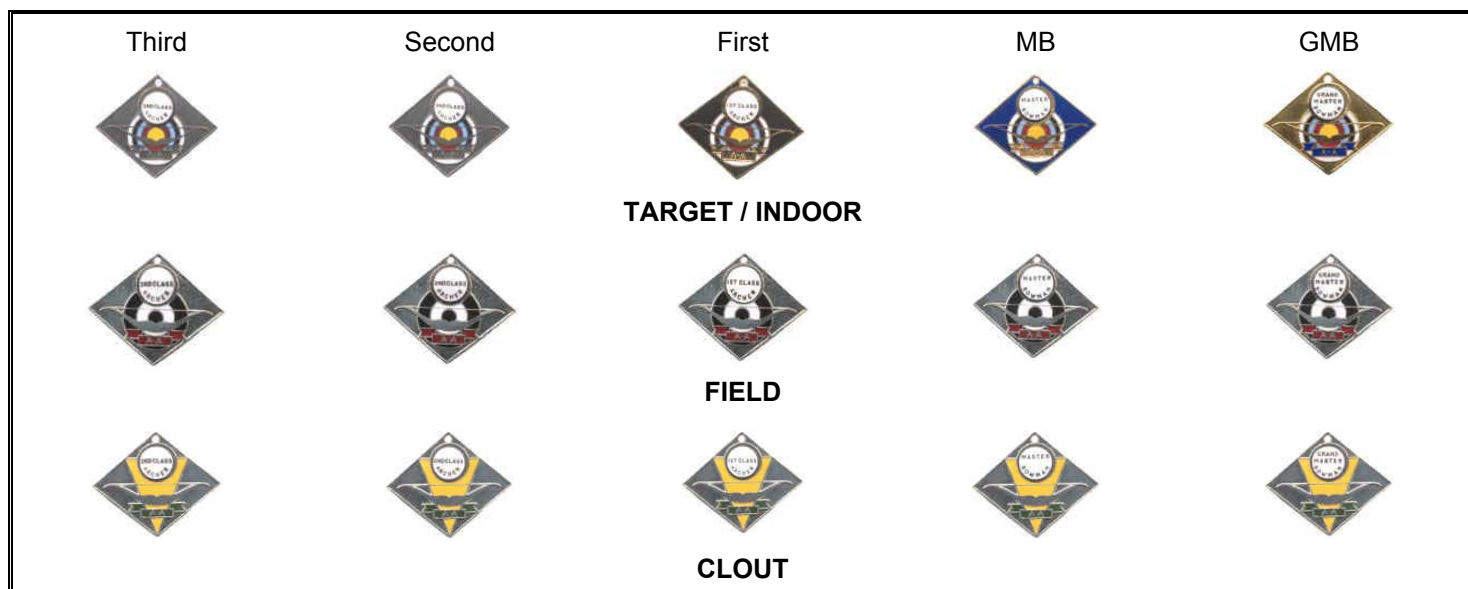

**Crossbow** Stars are green and are available for 750, 800, 830, 860, 890, 920

The claiming process for these awards varies according to your RGB so please check with your Club or RGB Recorder. There are 2 ways of acquiring Australian Stars:

1. In accordance with AA Inc. rules only one award can be claimed for each score, and only the award that is relevant for that score may be claimed and will be issued for no charge if the requirements have been met. However the awards may be claimed in any order so archers are entitled to claim future higher or lower level ones which will be issued for no charge under the same guidelines according to the scores they shoot.
2. Archers may choose to purchase lower level Australian Stars if they hold an Australian Star higher than the ones they want to purchase. Requests are to be made through your RGB Recorder and there are no time frame limits. The AA Recorder will check the AA Awards database to ensure the higher award is held and send the awards requested and an invoice to the RGB Recorder for distribution. \$8 per award is the current cost though this will inevitably increase over time.

All Australian Stars are held by the AA Recorder, and awarded on verification of the criteria being met. Since 1 April 2005 Barebow Recurve and Compound archers have been able to claim Australian Stars for scores of 800 or more over their designated rounds.

# AA CLASSIFICATION MEDALS

The Classification Medals are diamond in shape:

<b>Target/Indoor 2<sup>nd</sup> and 3<sup>rd</sup> class:</b>	Bronze with white insert for Target and grey insert for Indoor
<b>Target/Indoor 1<sup>st</sup> class:</b>	Black with white insert for Target and grey insert for Indoor
<b>Target/Indoor Master Bowman:</b>	Blue with white insert for Target and grey insert for Indoor
<b>Target/Indoor Grand Master Bowman:</b>	Gold with white insert for Target and grey insert for Indoor
<b>Field levels are all the same:</b>	Black and white target on silver background with white insert
<b>Clout levels are all the same:</b>	Yellow clout on silver background with white insert

Archers and arbalists are able to achieve the following classification levels:

- Third Class
- Second Class
- First Class
- Master Bowman (MB)
- Grand Master Bowman (GMB)

for each of Target, Indoor, Field, Clout and Flight (AA Rules 4.2.1). The details are set out in Chapter 4 of the AA Rule Book, and need to be read in full there as it is a complex procedure, but a few points to note are listed below.

**Frequency:** Third, second and first class awards are one-off achievements, but Master and Grand Master Bowman are awarded annually. Medals for the first three levels simply state the level achieved, while for Master and Grand Master Bowman levels the year is indicated on the medal insert.

**\*\*\*New in 2006\*\*\*** Complete MB and GMB medals with inserts indicating the year of achievement are now issued for the years in which the criteria are met and claims received. Archers having previously been issued with just the MB and GMB inserts may now choose to purchase the appropriate medals if details in the AA Awards database indicate that they are entitled to do so. Please contact your Club or RGB Recorder for further information.

**Claiming:** Third, second and first class awards are held by club recorders and are issued to the archers who have met the criteria stipulated by AA. The club recorder must make MB and GMB claims, and forward them with scorecards to their RGB Recorders who verify and sign that the claims meet the requirements. The completed claim form only will then be sent to the AA Recorder who will check the claims, issue the awards, and note them on the AA Awards database.

**Event round:** For all MB and GMB awards at least one of the three rounds submitted must have been shot at an 'event'. Ranking rounds sanctioned by RGB's are considered an 'event' if members from more than one club are competing, as of course are other tournaments. (AA Rules 7.4, Outdoor Target 4.2.3.2, Indoor 4.2.4.2, Field 4.2.5.2, Clout 4.2.6.2). The 'event' round shall be at least the same as required to be shot at the National Championships by that archer's/arbalist's age/bow division. The 3 rounds shall be shot between January 1 and December 31 of the same year.

**Target MB and GMB claims:** Two of the rounds shot may now be 100+ arrow (AA Rules 4.2.3), 90+ bolts (AA Rule 15.6.3.2) rounds which may be shot at a tournament or club shoot, and shall include at least 30 arrows at the distances shown in tables 4.2.3.3. Remember that the 'event' round shall still be at least the National Championship target round shot by that archer.

# OTHER AA MEDALS

## All Gold and Perfect Ten medals

 <p><b>Perfect Ten      All Gold</b></p>	 <p><b>Perfect Ten      All Gold</b></p>	 <p><b>Perfect Ten      All Gold</b></p>
<b>GOLD – National Events</b>	<b>SILVER – State Events</b>	<b>BRONZE – Club Events</b>

Badges for achieving either 6 arrows in the gold (9s and 10s), or 6 tens on one end, are available for regular shooting distances. The medals are available in 3 colours and are able to be purchased for the following events, with an insert showing the distance over which the score was shot. The archer usually indicates on their scorecard if they wish to claim one or more of these medals.

### **Bronze Medals for club events**

Stocks of these medals can be held by individual clubs and awarded at that club recorder's discretion on evidence of a correctly completed scorecard.

### **Silver Medals for State Championship events**

RGB Recorders can hold stocks of these medals and the medals are only available when the scores are shot at an event at which a state title is decided. The RGB Recorder will require the evidence of a correctly completed scorecard before awarding the medal claimed.

### **Gold Medals for National Championship events**

Stocks of these medals are held by the AA Recorder and may also be held by the current Nationals Organising Committee. These medals are only available for purchase by archers meeting the requirements while competing at a National Championship event. They may be claimed from the AA Recorder once the Championship event is over, through their RGB Recorder, as all Nationals scorecards are retained for at least 12 months.

Please note that when 3 arrow ends are shot the "end" required for one of these awards needs to be equivalent to the 6 arrows shot in 6 arrow ends. This means arrows 1 - 6, 7 - 12, 13 - 18 etc of a range, not arrows 4 - 9 or 16 - 21 for example.

Inserts are available for the following distances in meters:

- 122cm target face:** 10, 15, 20, 25, 30, 35, 40, 45, 50, 55, 60, 70, 90,  
**80cm target face:** 20, 25, 30, 35, 40, 50, 60 (indicated by an 'M' under the number)  
**Indoor targets:** 18, 25 (number on a grey background instead of white)  
**Clout:** 100, 125, 145, 165, 180

## Field Pins

 <p><b>Field 15 Pin</b></p>	 <p><b>Field 20 Pin</b></p>
--	--

Stocks of these pins may be held by RGB Recorders and individual clubs, and awarded by the Club Recorder once evidence of the required score is provided. The pins are the same whether claimed for a club shoot or a tournament, and are available for purchase by the archer.

**Field 15 Pins:** These are for FITA Rounds where 3 arrows are shot per target and the maximum possible score of 15 on one target is achieved.

**Field 20 Pins:** These are for other rounds where 4 arrows are shot per target and the maximum possible score of 20 on one target is achieved.
